Hydroquinone, USP

SAFETY DATA SHEET

Section 1 Identification of the substance/mixture and of the company/undertaking

Product Identifier:

Identification on the label/ Tradename: Hydroquinone, USP
Identification of the Product: CAS# 123-31-9
RTECS No.: MX3500000
CI No.: Not Available

Synonyms: 1,4-Benzenediol; 1,4-Dihydroxy-benzen [Dutch]; 1,4-Dihydroxy-benzol [German]; 1,4-Dihydroxybenzen [Czech]; 1,4-Dihydroxybenzene; 1,4-Diido benzene [Italian]; 4-Hydroxyphenol; Benzene, p-dihydroxy-; Benzohydroquinone; Benzoquinol; Black and White Bleaching Cream; Derma-Blanch; Eldopaque; Eldopaque Forte; Eldoquin; Eldoquin Forte; Hidroquinone; Hydrochinon [Czech, Polish]; Hydroquinol; Hydroquinol; Hydroquinone; Idrochinone [Italian]; Phiaquin; Pyrogentistic acid; Quinol; Solaquin Forte; Tecquinol; Tequinol; p-Benzenediol; p-Dihydroxybenzene; p-Dioxybenzene; p-Hydroquinone; p-Hydroxyphenol; para-Dihydroxybenzene; para-Dioxybenzene; para-Hydroquinone

Relevant identified uses of the substance and uses advised against:

Uses Advised Against: No information available

Name, address, and telephone number of the manufacturer:
Refer to Supplier

Name, address, and telephone number of the supplier:
Encore Scientific
801 W. New Orleans St, Broken Arrow, Ok 74011
Supplier's Telephone # 800-454-2304 Monday to Friday 8:00 am to 6:00 pm (Central time)
24 Hr. Emergency Tel # INFOTRAC: (800) 535-5053 (Within Continental US and Canada); (352)323-3500 (International)

Section 2 Hazards Identification

Classification
This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)
Category 4: Acute toxicity – Oral
Category 2: Skin corrosion/irritation
Category 2: Germ cell mutagenicity
Category 1: Serious eye damage/eye irritation
Category 1: Skin sensitization
Section 2 Hazards Identification (continued)

Label Elements: Danger

Hazard statements:
- Harmful if swallowed
- Causes skin irritation
- Causes serious eye damage
- May cause an allergic skin reaction
- Suspected of causing genetic defects
- Suspected of causing cancer

Hazards not otherwise classified (HNOC):
- Not Applicable

Other hazards:
- Not available

Precautionary Statements - Prevention:
- Obtain special instructions before use
- Do not handle until all safety precautions have been read and understood
- Wash face, hands and any exposed skin thoroughly after handling
- Do not eat, drink or smoke when using this product
- Avoid breathing dust/fume/gas/mist/vapors/spray
- Contaminated work clothing should not be allowed out of the workplace
- Wear protective gloves/protection clothing/eye protection/face protection

Precautionary Statements - Response:
- IF exposed or concerned: Get medical advice/attention
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.
- IF ON SKIN: Wash with plenty of soap and water
- Take off contaminated clothing and wash before reuse
- If skin irritation or rash occurs: Get medical advice/attention
- IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell
- Rinse mouth

Precautionary Statements - Storage:
- Store locked up

Precautionary Statements - Disposal:
- Dispose of contents/container to an approved waste disposal plant
Hydroquinone, USP

Section 4 First aid measures

General Advice: National Capital Poison Center in the United States can provide assistance if you have a poison emergency and need to talk to a poison specialist. Call 1-800-222-1222. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. First aider needs to protect himself.

Skin Contact: Wash off immediately with soap and plenty of water removing all contaminated clothing and shoes. Get medical attention if irritation develops. Get medical attention. If symptoms persist, call a physician.

Eye Contact: Flush eyes with water for 15 minutes. Immediate medical attention is required. Call a physician immediately.

Inhalation: Move to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. WARNING! It may be hazardous to the person providing aid to give mouth-to-mouth resuscitation when the inhaled or ingested material is toxic, infectious or corrosive. Do not use mouth-to-mouth resuscitation if victim ingested or inhaled the substance; induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Get medical attention.

Ingestion: Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Obtain medical attention.

Most important symptoms and effects, both acute and delayed

Symptoms: Causes serious eye irritation. May cause corneal opacity. Inflammation of the eye is characterized by redness, watering and itching. May cause methemoglobinemia and cyanosis. May cause central nervous system effects. May affect the liver. It may affect the kidneys. May cause allergic skin reaction. May cause abdominal pain, nausea, vomiting, diarrhea. Depigmentation of skin.

Indication of any immediate medical attention and special treatment needed

Notes to Physician: Treat symptomatically

Protection of first-aiders

First-Aid Providers: Avoid exposure to blood or body fluids. Wear gloves and other necessary protective clothing. Dispose of contaminated clothing and equipment as bio-hazardous waste
Hydroquinone, USP

SDS Preparation Date (10/17/2016):

SAFETY DATA SHEET

Section 5 Fire-Fighting measures

Extinguishing Media

Suitable Extinguishing Media: Carbon dioxide (CO2). Dry chemical. Water spray. Foam.

Unsuitable Extinguishing Media: No information available.

Specific hazards arising from the chemical

Hazardous Combustion Products: Carbon oxides.

Specific hazards: May be combustible at high temperatures.

Special Protective Actions for Firefighters

Specific Methods: No information available.

Special Protective Equipment for Firefighters: As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

Section 6 Accidental release measures

Personal precautions, protective equipment and emergency procedures

Personal Precautions: Ensure adequate ventilation. Keep people away from and upwind of spill/leak. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Avoid contact with skin, eyes and clothing. Use personal protective equipment. Avoid dust formation. Avoid breathing dust. Remove all sources of ignition.

Environmental precautions: Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Prevent entry into waterways, sewers, basements or confined areas.

Methods and material for containment and cleaning up

Methods for containment: Stop leak if you can do it without risk. Cover with plastic sheet to prevent spreading.

Methods for cleaning up: Use appropriate tools to put the spilled solid in a suitable waste disposal container. Clean contaminated surface thoroughly.

Section 7 Handling and storage

Precautions for safe handling

Technical Measures/Precautions: Provide sufficient air exchange and/or exhaust in work rooms. Avoid dust formation. Keep away from incompatible materials.

Safe Handling Advice: Wear personal protective equipment. Avoid contact with skin, eyes and clothing. Avoid dust formation. Do not breathe vapors/dust. Do not ingest. Do not smoke. Keep away from heat and sources of ignition. Handle in accordance with good industrial hygiene and safety practice.
Hydroquinone, USP

Appropriate engineering controls
Engineering measures to reduce exposure: Ensure adequate ventilation. Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit.
Hydroquinone, USP

SAFETY DATA SHEET

Section 8 Exposure Controls/Personal Protection (continued)

Individual protection measures, such as personal protective equipment

Personal Protective Equipment
Eye protection: Goggles.

Respiratory protection: Wear respirator with dust filter. Use a dust respirator under conditions where exposure to the substance is apparent (e.g. generation of high concentration of dust (dust clouds), inadequate ventilation, development of respiratory tract irritation), and engineering controls are not feasible. Be sure to use an approved/certified respirator or equivalent.

Hygiene measures: Avoid contact with skin, eyes and clothing. When using, do not eat, drink or smoke. Wash hands before breaks and immediately after handling the product.

Hydroquinone, USP

Section 10 Stability and reactivity

Reactivity: Reactive with oxidizing agents. Reactive with alkalis.
Chemical stability
Stability: Sensitive to light. Exposure to light accelerates decomposition. Stable under recommended storage conditions.
Possibility of Hazardous Reactions: Hazardous polymerization does not occur.

Hazardous decomposition products: Carbon oxides

Other Information
Corrosivity: No information available
Special Remarks on Corrosivity: No information available

Section 11 Toxicological information

Information on likely routes of exposure
Principal Routes of Exposure: Ingestion. Inhalation. Skin.

Acute Toxicity

Component Information
Hydroquinone – 123-31-9
LD50/oral/rat = 298 mg/kg Oral LD50 Rat (LOLI) | 302 mg/kg (RTECS) | 310-1064 (European Chemicals Bureau IUCLID dataset)
LD50/oral/mouse = 245-350 mg/kg (RTECS) | 245-400 mg/kg (European Chemicals Bureau IUCLID dataset)
LD50/dermal/rat = > 900 mg/kg
LD50/dermal/rabbit = 74800 mg/kg Dermal LD50 Rabbit
LC50/inhalation/rat = No information available
LC50/inhalation/mouse = No information available
Other LD50 or LC50 information = 550 mg/kg Oral LD50 Guinea pig | >1000 mg/kg Dermal LD50 Guinea pig

Product Information
LD50/oral/rat = VALUE- Acute Tox Oral = 302mg/kg
LD50/oral/mouse =
Value - Acute Tox Oral = 245mg/kg
Section 11 Toxicological information (continued)

Product Information continued

LD50/dermal/rabbit
VALUE-Acute Tox Dermal = 74800mg/kg

LD50/dermal/rat
VALUE-Acute Tox Dermal = > 900mg/kg

LC50/inhalation/rat
VALUE-Vapor = No information available
VALUE-Gas = No information available
VALUE-Dust/Mist = No information available

LC50/Inhalation/mouse
VALUE-Vapor = No information available
VALUE-Gas = No information available
VALUE-Dust/Mist = No information available

Symptoms
Skin Contact: Causes skin irritation. Moderately to strongly irritating. Causes a rash and changes in skin color.

Eye Contact: Causes serious eye irritation. May cause corneal ulceration.

Inhalation: May cause irritation of respiratory tract.

Ingestion: Harmful if swallowed. Amounts of 1 gram or more can cause pallor, tinnitus, abdominal cramps, nausea, vomiting, diarrhea, dizziness, twitching, delirium, tremors, excitement, convulsions, muscle contraction or spasticity, ataxia, headache, a sense of suffocation, breathing difficulty, methemoglobinemia (an increase in the level of methemoglobin in the blood which decreases the amount of oxygen in the blood), cyanosis (a bluish discoloration of the skin, lips, nails due to deficient oxygenation of the blood), increased pulse rate, cardiovascular collapse, coma. It may also affect the liver, kidney damage (urine may turn a green or brown-green color which darkens upon standing), bronchopneumonia. Ingestions in the range of 5 to 12 grams have been fatal.

Aspiration Hazard: No information available.
Section 11 Toxicological information (continued)

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Chronic Toxicity:
- Skin: It is a sensitizer and may cause dermatitis upon repeated or prolonged skin contact. Repeated skin contact causes depigmentation similar in appearance to vitiligo.
- Eyes: Prolonged or repeated exposure to dust at airborne concentrations in the range of 10 to 30 mg/m3 can cause staining of the conjunctiva, corneal opacity, alterations in the corneal curvature as well as pitting and erosion of the corneal surface. These conditions require at least 5 years of exposure to develop, but may persist for some time after removal from exposure.
- Inhalation: Prolonged or repeated inhalation may cause respiratory tract irritation and decreased pulmonary function.
- Ingestion: Prolonged or repeated ingestion may cause weight loss, changes in red blood cell count, normocytic or aplastic anemia, atrophy of the liver, and photosensitization. It may also affect the kidneys and behavior/central nervous system (similar effects to acute ingestion), brain.

Sensitization: May cause sensitization by skin contact

Carcinogenic effects: Suspected of causing cancer.

Reproductive toxicity: No data is available
Reproductive Effects: May cause adverse reproductive effects based on animal data. No information on reproductive toxicity effects on humans was found.

Developmental Effects: No information available
Teratogenic Effects: No information available

Specific Target Organ Toxicity
- STOT - single exposure: No information available
- STOT - repeated exposure: No information available
Hydroquinone, USP

Ecotoxicity

Ecotoxicity effects:
Aquatic environment. Very toxic to aquatic organisms.

Hydroquinone - 123-31-9

Freshwater Algae Data:
- 0.335 mg/L EC50 Pseudokirchneriella subcapitata 72 h
- 13.5 mg/L EC50 Desmodesmus subspicatus 120 h

Freshwater Fish Species Data:
- 0.1 - 0.18 mg/L LC50 Pimephales promelas 96 h static 1
- 0.044 mg/L LC50 Oncorhynchus mykiss 96 h flow-through 1
- 0.17 mg/L LC50 Brachydanio rerio 96 h 1
- 0.044 mg/L LC50 Pimephales promelas 96 h flow-through 1

Water Flea Data:
- 0.29 mg/L EC50 Daphnia magna 48 h

Mobility:
It is expected to have a moderate mobility in soil upon estimated Koc.

Persistence and degradability:
No information available

Bioaccumulative potential:
Potential for bioconcentration in aquatic organisms is low.

Disposal Instruction

Waste from residues / unused products:
Waste must be disposed of in accordance with Federal, State and Local regulation.

Contaminated packaging:
Empty containers should be taken for local recycling, recovery or waste disposal

EU Classification

R-phrase(s):

R22 - Harmful if swallowed.
R40 - Limited evidence of a carcinogenic effect
R41 - Risk of serious damage to eyes.
R43 - May cause sensitization by skin contact.
R50 - Very toxic to aquatic organisms.
R68 - Possible risk of irreversible effects.

S-phrase(s):

S 2 - Keep out of the reach of children.
S26 - In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
S61 - Avoid release to the environment. Refer to special instructions/safety data sheets.
S36/37/39 - Wear suitable protective clothing, gloves and eye/face protection.
